### **CONSERVATION AND STORAGE :** *(recommendations for transport, storage and distribution)*

The Elderflower Liqueur is not subject to 'Use by Date' or 'Best Before' regulations.

No specific storage conditions, however to ensure optimal taste quality as long as possible it is recommended:

- to avoid storage at over 25°C on average
- to avoid prolonged exposure to the light
- to drink the Elderflower Liqueur quickly after opening

However, there is no risk for the health if the product is drunk after a long storage. Only organoleptic qualities may be altered.

### **NORMAL USE :**

The Elderflower Liqueur can be drunk pure or in cocktails, mainly as an apéritif. It can also be used for cooking, it adds a gourmet touch to dishes and desserts.

### **SENSITIVE CONSUMERS :**

In certain circumstances, it is recommended to avoid drinking alcoholic beverages:

- before legal age: the sale of alcoholic beverages is forbidden to children under legal age (article L.3342-1 of the French Public Health Code). It is also illegal to offer these beverages free of charge to children under age in public houses, pubs and all shops or public venues.
- during pregnancy and the nursing period
- when driving a vehicle or a machine
- when the situation requires vigilance
- when taking certain medicines (consult the leaflet)
- with certain acute or chronic illnesses (viral hepatitis, pancreatitis, epilepsy ...)
